## Promoting Financial Wellness at Every Age

This month, Kristine visited Grade 7 students at WMCI to teach the Basic Banking program as part of our partnership with Each One Teach One. It's just one example of how Stride team members are volunteering their time to support financial education in our region.

Through programs like Each One Teach One and Junior Achievement Manitoba, we're helping bring financial literacy to local schools and organizations, covering topics like Budgeting, Fraud Prevention, and Financial Wellness for Seniors.
