

Member Notification

June 7, 2023 - Please be aware of a planned outage for our digital banking systems on Sunday, June 11.

Our digital banking provider will be performing upgrades to advance the stability and improve the experience you have with our digital banking platform.

The outage is planned for June 11th from 2:00 am to 2:00 pm. During this window, our mobile banking app and online digital banking services will be unavailable. We recommend having an alternate form of payment available as purchases through Point of Sale terminals and withdrawals from ATMs will be limited.

We appreciate your understanding on the need for these upgrades as we continue to improve the banking experience for our members.
